

Case study:

Pembroke College

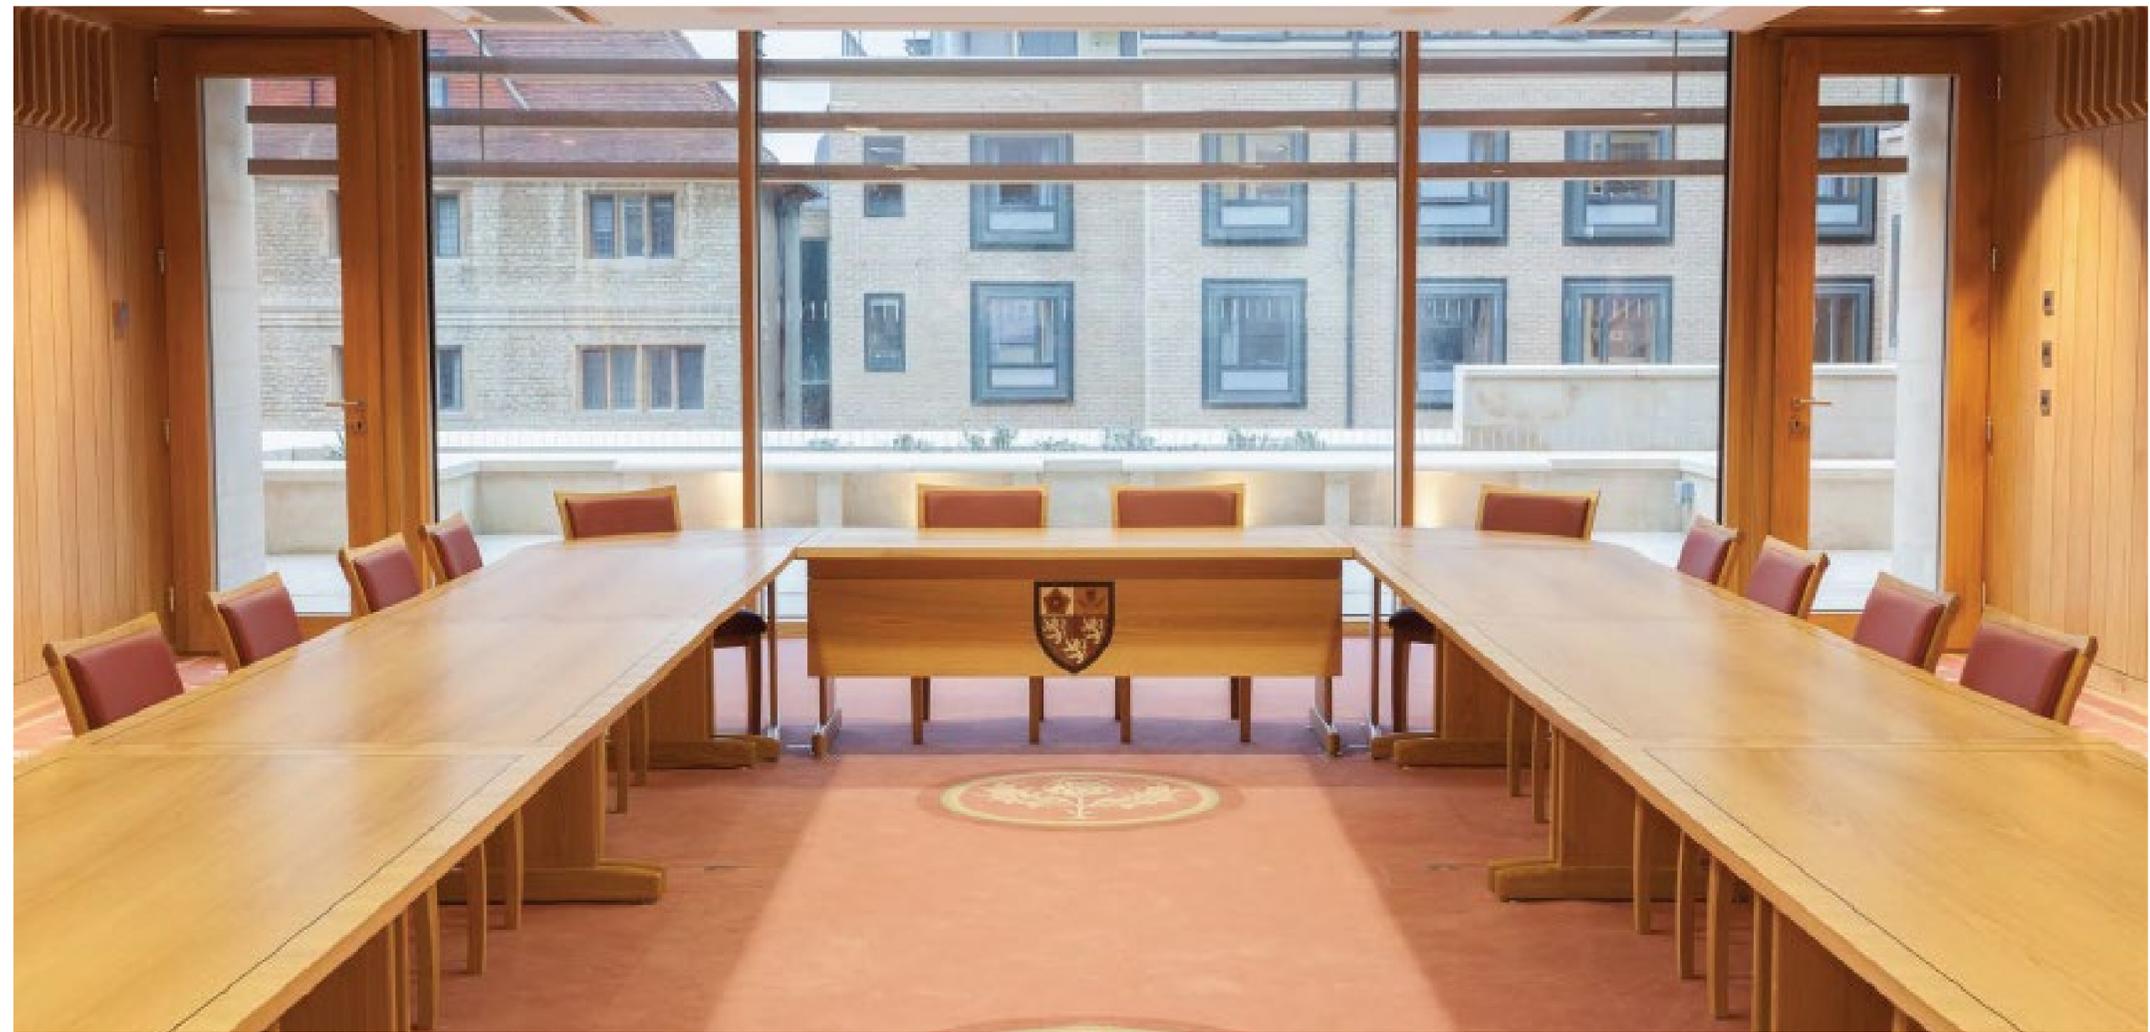

Oxford, UK

Project Brief

- Design and plan executive meeting space
- Ensure flexibility for easy reconfiguration
- Select hardwearing, quality natural materials
- Work in harmony with new build architecture
- Specify flexible, but robust reconfigurable furniture
- Manufacture bespoke items as required
- Include cut and scribe panelling
- Ensure wipe clean surfaces for infection control
- Bring project in on budget and agreed timelines.

Sustainability

- All timber from sustainable sources
- Wide use of renewable materials
- All items supplied recyclable at end of life
- All items Ska compliant
- All packing materials recycled or re-used
- Low scope 3 emissions.
