Showcasing Furniture Longevity

Project Outline

The project focused on quick turn around time from building completion, requiring product specification, sampling and supply of furniture for all areas of the build for 120 pupils and staff.

These areas included classrooms, laboratories, art rooms, cafe, breakout areas locker wall storage sand administrative offices , specified and supplied within a 12 week window ready for start of term.

Whilst speed of supply and installation was a key factor, it was equally as important to create environments and social spaces conducive to learning.

Key Outcomes

Works were delivered successful on time and to budget, meeting the needs of the contractor and client. JPA retained a longer presence during handover to ensure smooth occupancy and rapid resolution of any teething issues by ensuring occupants were familiar with products and operation.

JPA provided a 10year supported warranty on furniture supplied to optimise investment through long-term value and reduced waste. JPA additionally provide maintenance services after warranty has expired and furniture take back, end of life re-use (if still fit-for-task) and/or recycling away from landfill.
