Case Study

Institute of Education

Showcasing Furniture Longevity

Project Outline

The project scope included working with the architects Penoyre & Prasad to select and co-ordinate the loose furniture and fittings across 2 floors - 6 and 7. All items needed to be easy clean with a focus on inclusivity and accessibility, comfort and functionality.

Manufacturing partners and products were selected against a variety to criteria to reflect and embody responsible procurement across operation, services and products.

Key Outcomes

All works were brought in on budget and to agreed timelines in live site conditions.

The scheduled two week installation programme was achieved, phasing each floor over one week and allowing ample time for snagging and sign off. Effective communication and collaborative working with Overbury and other site contractors facilitated an easy transition into occupation.

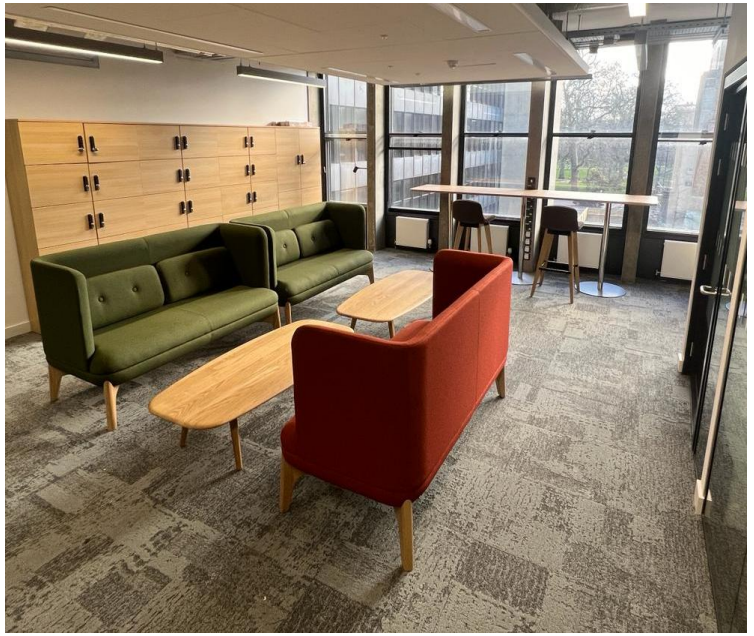

Post occupation JPA maintenance support ensures optimal facility performance 24/7 and high levels of user satisfaction.

- → Included product support over complete lifecycle
- → 100% Carbon Neutral Installation by JPA Teams
- → Zero to landfill – all packaging waste recycled or re-used.
- → Soft landings – user engagement to ensure comfort a nd functionality.
- → Continuity of parts – agreed with supply chain for optimal lifecycles.
